About PM Village™

The PM Village™ suite of tools and services were developed by Edvance Research, Inc., and are powered by the eMetric technology platform. Edvance and eMetric are San Antonio-based small businesses dedicated to improving student achievement through the power of data, research and technology. Please visit www.pmvillage.org or call 1-866-552-2118.

About Edvance Research, Inc.

Founded in 2005, Edvance Research, Inc. is a nationally known, women and minority, employee owned business, specializing in rigorous product, policy and market research in the education market. Edvance Research is dedicated to improving student outcomes by supporting organizations in learning about evidence-based practices and using that information to improve their practice and results. Please visit www.edvanceresearch.com for more information.

About eMetric

eMetric is a provider of K-12 web-based assessment and reporting solutions as well as psychometric services for school districts, state education agencies, and testing organizations. eMetric is committed to making an impact on K-12 education by creating innovative solutions that are powerful and easy to use, and that are highly flexible to meet the needs of a wide spectrum of users. Please visit www.emetric.net.

There is a way!

PM Village™ is a comprehensive suite of tools and services developed to manage district or school performance against improvement plans and know whether investments in classroom and school interventions are yielding desired results.

Tools that Educators Can Use

Using a complete continuous improvement model, **PM Village™** provides practical tools for educators:

- **Dashboards** allow drill downs and filters to understand student performance on key **indicators**;
- An easy to use **report writer** enables users to create reports customized to their own needs;
- Evidence-based **interventions** described and rated in a searchable database, are tagged to correspond to outcome and early warning indicators;
- Progress **monitoring** toward improvement goals, using a researcher-created tracking tool, enable users to assess intervention success and effectiveness;
- Online and in-person **professional development** modules available to help deepen participants' understanding of the principles behind performance management, build a culture of continuous improvement, and increase research literacy;
- **Help desk** support is available by phone and email; and
- **Interactive networking** with other education professionals is available through in-person Consortium meetings, Webinars, and social networking tools on the PM Village website.

Just what you need!
